Collaborative Efforts Between Tribes & Counties

Stacey Schreiber, S-M Community Public Works Director

Willy Miller, S-M Community Roads Manager

Grant Bystol, Shawano County Highway Department Highway Commissioner

Katie Schwartz, Shawano County Highway Department County Engineer

- Stockbridge-Munsee Community and Shawano County have partnered on a multi-phase project to complete road construction activities on the portion of County Highway J between State highway 29 and County Highway D. Shawano County Highway Department Highway Commissioner Grant Bystol said, "It is great to see the Stockbridge-Munsee Community and the Shawano County Highway Department continue to work together on projects such as these. We have a common goal of improving area roadways for the safety of all the traveling public and projects like this wouldn't be possible without the cooperative agreement that we share. Signage demonstrating the partnership between the County and the Tribe can be seen along the roadside of County Highway J.
