Capital Overview

SBA provides a number of financial assistance programs for small businesses that have been specifically designed to meet key financing needs

U.S. Small Business Administration

Loan Guaranty Program

**Get \$500 to \$5.5 million to fund your
business**

- Loans guaranteed by the SBA range from small to large and can be used for most business purposes, including long-term fixed assets and operating capital.

Loan Guaranty Program

- The SBA doesn't lend the money *directly* to entrepreneurs to start or grow a business, but sets the guidelines for loans made by its partners (lenders, community development organizations and micro-lending institutions).
- SBA guarantees that these loans will be repaid, which eliminates some of the risk to the lending partners

U.S. Small Business Administration

Loan Guaranty Program

U.S. Small Business Administration

Loan Guaranty Program

Some loan programs set restrictions on how you can use the funds, so check with an SBA-approved lender when requesting a loan. Your lender can match you with the right loan for your business needs

Contracting

The U.S. government is the largest single purchaser of goods and services in the world, awarding approximately \$500 billion in contracts every year.

Contracting

The Small Business Administration works with federal agencies to award at least 23% of all prime government contract dollars to small businesses and help federal agencies meet specific statutory goals for:
